VOLUME DISCOUNT

Customers will receive \$50 off per bull on multiple bulls.

TERMS

Cattle sell under the suggested Terms and Conditions of the American Angus Association and American Hereford Association. Terms of the sale are cash unless satisfactory credit arrangements have been made prior. Sale day announcements take precedence over printed material. The auctioneer will settle all disputes.

DELIVERY/PICKUP

Arrangements for pick-up must be made at settlement. Consignors will care for bulls for two weeks at no charge. After April 2, 2016, the cost will be \$3/head/day. Purchaser assumes the risk of death or injury immediately after the animal is sold. Insurance is recommended and can be arranged by Jensen Livestock Agency.

VIDEOS AND ONLINE BIDS

Bulls will not be going through a sale ring, they will be displayed at the sale site. The sale will be broadcast on DVAuction. Please register at *DVAuction.com*. Prior to the sale, videos will be available at *OnTargetBullSale.com*.

LIABILITY

All persons attending the sale do so at their own risk, and the owners and their agents assume no liability, legal or otherwise, for any accidents which may occur.

BREEDING GUARANTEES

Bulls and females are guaranteed to be breeders for the first 90-day breeding season with the exception of: 1) Injury or disease occurring to the animal after the time of purchase. 2) Gross negligence or willful misconduct on the part of the purchaser. If problems arise buyer must contact seller before any action, such as disposal of animal, is taken.

Dear Friends,

Welcome to our second On Target Bull Sale. We are thankful to partner with our longtime friends, Ken and Zita Duensing of Alcove Cattle Co., to host the sale in Blue Rapids. Since 1937, our family has worked to build a herd of real world, functional Herefords that hit the target for our customers' operations.

This year we were excited to develop the bulls in our new bull center. As we built the center, our goal was to create a facility and nutrition program that would produce bulls that can go home and go to work for you and not "melt" in the process. See Page 10 for more information about the center and our nutrition program.

We believe this group of bulls speaks for itself and that they can help you hit your breeding program "target" whether you are looking for calving ease, performance, docility, feed efficiency or longevity.

Springhill Herefords was started by my father back in 1937, my grandkids are the fourth generation to raise and show Herefords and its a tradition we hope will continue for generations to come. We're blessed to have daughter, Kim, her husband, Dan, and their three kids working with Delores and I on a daily basis. Angie, her husband, John, and their two boys are also here in Blue Rapids and help as time permits. Daughter Jami and her husband, Jarrod, and their two kids also play an important role in the farm and we love having them home to help when they can.

I'd be remiss if I didn't mention my sister Sue Rowland. Sue and Jim and their G&R genetics have played a vital role in our breeding program through the years. We're pleased that Sue has consigned two lots in this year's sale. We also appreciate all Grant, Linda and Bailey McKay have done to help with the sale and through the years.

We look forward to hosting you on March 19. If you have any questions before the sale, don't hesitate to contact any of us. We'll have the bulls at the sale site by 10 a.m. Saturday morning. If you'd like to view them before the sale give us a call. Videos of each lot are available online at OnTargetBullSale.com. If you can't attend in person, the sale will be broadcast online on DVAuction.com.

Thank you for your interest.

ON TARGET BULL DEVELOPMENT CENTER

The second step in our "On Target" partnership was building a facility where the Hereford and Angus sale bulls could be developed at the same location. The facility includes two 3-acre tracks where the bulls can become athletes. Our goal is to prepare the bulls so they are ready to go to work for you.

The bulls arrived at the center on December 14. The Hereford and Angus bulls were developed on rations that met their protein requirements and maximized their performance. Ration Manager and corn were fed along with long stem hay. The Ration Manager program utilizes the Intake Modifying Technology causing cattle to consume multiple small feedings daily, which optimized the flow of nutrients to the digestive system thereby increasing forage intake, overall utilization and cattle performance. As a group the bulls averaged 3.57 ADG.

The bulls will be at our development center until sale day. if you'd like to view them at the center give us a call.

Dear Fellow Cattlemen and Friends,

Welcome to Blue Rapids in the beautiful Flint Hills. We think starting our calves on the grasses of the Flint Hills puts them on a path of good nutrition that will carry on into your herd.

We have been selling bulls in a sale for 18 years and have enjoyed and learned every year. We are excited to once again partner with Springhill Herefords and G&R Polled Herefords for our 2nd On Target Bull Sale.

Our cow herd is selected for fleshing ability, problem-free udders and fertility. We strive to produce bulls with moderate birth weights, accelerated growth traits and acceptable carcass traits. The bulls are the result of mating decisions made by evaluating EPD and performance data, while giving attention to traits that aren't measured by numbers — good udders, sound feet, good dispositions, eye appeal and soundness. Alcove Cattle Co. uses an aggressive AI program to capture new and popular bulls, which in turn gives you more choice. With our embryo program we are able to utilize our best donors with genetically proven sires. In addition we have purchased high quality embryos from other breeders to diversify our herd and give you more choice in buying bulls.

Building our own bull facility has given us the opportunity to have them close to home so we can observe them daily and make adjustments as needed. The large grass runs allow them to spread out and get more exercise.

We believe yearling bulls are easier on heifers, cows and each other. Handled and used correctly, these yearling bulls will give you many years of breeding service.

We are offering some excellent open yearling Angus heifers. Be sure to take a look at these females. They would be great additions to your herd.

Both the bulls and the heifers have been ultrasounded, pelvic scored and vaccinated. Additionally they have been tested for BVD and are guaranteed PI negative.

We are confident that our bulls will have a beneficial impact on strengthening the maternal traits of replacement females, improving commercial feedlot performance, and enhancing the eating characteristics preferred by beef consumers.

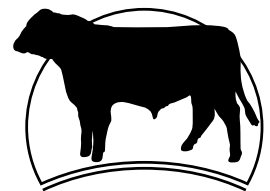

Choosing a herd sire is an important decision. It affects your herd and your income for years to come. We stress good disposition

in our cattle. Docile cattle result in more profit as compared to nervous and aggressive cattle. Repeat customers have always commented on the docility of our cattle. This is a direct result of the time that is spent with the cattle. Since birth these cattle have been walked through at least weekly. This allows them to be accustomed to being touched by their handler.

We strive to provide you with Angus cattle that are easy to handle and add value to your herd. If you have any questions about the offerings in this catalog, please give us a call. We encourage you to view the bulls before sale day at our bull facility north of Blue Rapids or come early on sale day.

We look forward to seeing you on March 19th.

Sincerely,
Ken & Zita Duensing
Alcove Cattle Co.

Natural calf of a Pathfinder cow in our herd. We flushed the dam of this bull and there are half brothers (embryos) in this sale. (Lots 36, 37 and 38).

Turn the page to see information on these quality heifers to add to your herd. The heifers have had ultrasound data collected, pelvic scored and vaccinated. Additionally they have been tested for BVD and are guaranteed PI negative. Ultrasound data will be posted to *OnTargetBullSale.com* and available on sale day.
